HP DESIGNJET 8000s PRINTER SERIES

- 64 inches in width
- 254 nozzle per head x 6 colours
- 720 x 720 dpi resolution
- Fast printing speed of up to 88 sqft/hr**
- 3 year fade resistance without lamination that is scratch, smear, and crack resistant*

With the HP Designjet 8000s printer series, your signage jobs will look more stunning than ever before. Featuring HP's new low-solvent ink formulations*, it delivers a superior range of vivid colours, accurately applied with 254-nozzle piezo printheads for each colour, in sharp 720 x 720 dpi resolution. Better still, your printouts' brilliant quality will stand the test of time – thanks to weather-proof technology that resists fading up to 3 years without lamination*. Not that you'll have to wait long for such splendid results. The HP Designjet 8000s printer series boasts an incredibly fast output of 88 sqft/hour**, so even rush jobs can be handled effortlessly. Combine all this with HP's world-renowned reliability, one contact point from pre-sale to after-sale, phone support services and next day localised support, and you'll agree that it's never been easier to take your business to new heights.
